ABOUT 8th ANNUAL MEETING OF INDIAN ACADEMY OF BIOMEDICAL SCIENCES (IABS) 2019

Indian Academy of Biomedical Sciences (Regd.) (IABS) has been established in order to promote research in the field of translational sciences. The academy has been registered under Societies Act 1860 of Government of India, with Registration No. 2826-2011-2012. The academy’s main aim is to disseminate knowledge and promote academic excellence in the field of Biomedical Sciences. The academy was formed with the vision, keen interest and efforts of several scientists from India and abroad. Initially, the initiative to form the Academy was taken by Prof. Hari S. Sharma, Department of Pathology, UV University, Amsterdam, Netherlands. Prof. Sharma discussed the idea with Prof. Abbas Ali Mahdi during one of his visits to his laboratory at King George’s Medical University, Lucknow, India. Thereafter Prof. Mahdi got the Academy registered at Lucknow on 7th February 2012.

IABS 8th Annual meeting will have deliberation on the ever-growing field of research surrounding metabolic disorders, metabolomics, cancer, infectious and autoimmune diseases, nutraceuticals and importance of translation research. From basic to translational research on various biomedical field, this event will be a platform for discussion on novel developments and emerging challenges and will pave path for successful achievement. The main objective of conference is to provide an opportunity for scientists and young researchers to get exposed to the latest research and developments in the field of translational biomedical sciences. It aims to promote exchange of ideas and create an environment for collaborative endeavours in the emerging frontiers of biomedical sciences having national and international significance.

ABOUT THIRUVANANTHAPURAM:

Thiruvananthapuram is the capital city of Kerala and is located on the west coast of India near the extreme south of the mainland. The city, once described by Mahatma Gandhi as the “Evergreen City of India”, boasts of various famous and interesting places including Padmanabhaswamy Temple and the Napier Museum. Thiruvananthapuram is also a major educational hub. Major research and academic institutions include the University of Kerala, Indian Institute of Space Sciences and Technology (IIST), Indian Institute of Science Education and Research (IISER), Sree Chitra Tirunal Institute for Medical Sciences and Technology (SCTIMST), Rajiv Gandhi Center for Biotechnology (RGCB), Tropical Botanic Garden and Research Institute (TBGRI), Regional Cancer Center (RCC), and Vikram Sarabhai Space Center (VSSC).

Thiruvananthapuram is also internationally recognised tourist destination. The tourist attractions include Kovalam beach, Kuthira Malika Palace, Velu tourist village, Neyyar dam, Lion safari park, Thenmala ecotourism, Pomnudi hills, Agasthyakoodam forest etc. Tourist destinations nearby Thiruvananthapuram include Kanyakumari, Varkala papanasham beach, and Munnar.

Thiruvananthapuram is a place of many pilgrim centres. The Padmanabhaswamy temple is a very famous temple and has been recently in the news being richest temple in the world. Attukal temple is famous due to the annual Pongala festival conducted here. Thiruvananthapuram is the capital city of Kerala and is located on the west coast of India near the extreme south of the mainland.

ABOUT CSIR-NIIST, THIRUVANANTHAPURAM:

CSIR-NIIST Thiruvananthapuram is a constituent laboratory of the Council of Scientific and Industrial Research (CSIR). Its mandate is to conduct research and development activities of the highest quality in areas related to effective utilization of resources of the region and of fundamental importance to the country. Currently NIIST is engaged in R&D programmes in areas related to Agro-Processing, Chemical Sciences, Materials Science and Technology, Biotechnology, Process Engineering and Environmental Technology. CSIR-NIIST has now emerged as one of the active centres for research in biomedical sciences in the areas of diabetes, CVD, cancer and natural products.
